# PARTY SQUASHER
by BlueZoo

Customizable alerts if too many mobile devices are detected

24/7 monitoring: no need to constantly watch

Displays current and historical data via mobile app

Easy to set up and manage multiple properties via mobile app

Privacy friendly: no personal data stored and GDPR-compliant

Tamper proof: receive an alert 15 minutes after a sensor is disconnected (or your home loses power)

37
estimated number of devices

Party Squasher Pro: Manage and monitor dozens or hundreds of properties with our web dashboard and more!

55

Avoid parties and dodge house damages, liabilities, angry neighbors about noise or street parking, and traffic with Party Squasher. With more cities regulating and banning parties at STR, be alerted whenever too many are showing.

Reassure your neighbors

Responsible hosts can proactively take steps to prevent neighborhood complaints before the noise starts
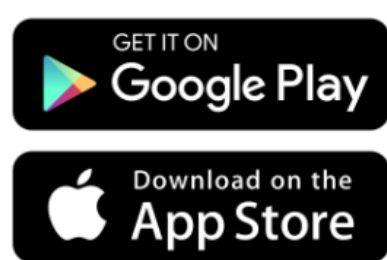

Data to demonstrate that there are no parties occurring on the premises

Highlights to local officials that STR, VR companies, and their hosts are taking extra steps to protect the community

Use code THINKSAFE25 to save $25

So easy to set up
